

Charging the Device

A fully charged battery will provide 24 hours of operation. You are required to charge the battery for a **minimum of 2 hours per day** to maintain 24 hours of operation.

Step 1

Connect the provided AC power cord to the power connection on the front of the device

Step 2

Plug the AC wall adapter into a power outlet.

Top LED Light:

(with AC power adapter connected)

Flashing Green = Charging
Solid Green = Charged

(without AC power adapter connected)

Flashing Green = Normal Operation
Flashing Red = Low Battery

Note: Device must be powered on for LED indicator lights to appear. Device will charge if not powered on, however LED indicator light will not be visible.

Bathing

TrackerPAL™ 2 devices are waterproof, however it is recommended that the device not be submerged in water. Showers are allowed.
